Introduction

The Iron Canyon area is located in the southeastern part of the Antler Peak 15-minute quadrangle, Nevada (fig. 1). This report presents the locations (fig. 2), and descriptions (table 1) and chemical analyses of 270 rocks and soils tested for platinum-group metals from Iron Canyon; 264 are rock samples and six are soil samples. The analyses listed in table 2 are the data used to construct the distribution diagrams and histograms in a report by Theodore and others (1976). Twenty-nine elements (Mg, Fe, Ca, Ti, As, Sb, W, V, Mo, Sn, Ni, Cr, Ba, Sr, B, Pb, Mn, Bi, Be, Nb, Y, Cd, Cu, Zr, Ag, La, Zn, Sc, and Co) were analyzed by a six-step spectrographic method (Grimes and Marranzino, 1968). The spectrographic results are reported to the nearest number in the series 1, 0.7, 0.5, 0.3, 0.2, 0.15, 0.1, and so on. The precision of a reported value is approximately plus 100 percent or minus 50 percent. Mercury and gold were analyzed by atomic-absorption methods (Vaughn and McCarthy, 1964; Thompson and others, 1968); gold in a few samples was analyzed by fire assay. Platinum, palladium, rhodium, ruthenium, and iridium were analyzed by fire-assay, emission spectrographic techniques (Cooley and others, 1976); rhodium, ruthenium, and iridium were not detected in any of the samples from Iron Canyon at lower detection levels of 0.002 to 0.5 ppm. The geology of the Iron Canyon area is described by Roberts (1964), Roberts and Arnold (1965), and Theodore and Roberts (1971).

Spectrographic analyses were made by N. M. Conklin, K. J. Curry, E. L. Mosier, J. M. Motooka, and K. C. Watts. Platinum-group metal analyses were made by R. R. Carlson, E. F. Cooley, and T. A. Doerge. Gold and mercury analyses were made by W. L. Campbell, L. Dickson, T. G. Ging, R. F. Hansen, W. W. Janes, H. D. King, W. B. Lynch, J. D. Hoffman, C. Huffman, C. L. Jacobson, B. Marshall, E. E. Martinez, P. Martinez, J. D. Menzik, R. L. Miller, J. M. Mitchell, K. R. Murphy, S. L. Noble, M. R. Parker, M. S. Rickard, L. B. Riley, T. A. Roemer, J. A. Thomas, J. E. Troxel, and G. H. VanSickle.
